## AN ACT RELATIVE TO RELIABILITY ON CAPE COD

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

- 1 The department of public utilities shall commence a study with the assistance of an independent counsel
- 2 who, within 120 days of the effective date of this Act, shall complete a cost analysis report evaluating all
- 3 technically feasible supply and demand proposals capable of ensuring electricity reliability on Cape Cod.
- 4 Said analysis shall include proposals which will reduce or eliminate existing uplift charges imposed upon
- 5 ratepayers in the so-called SEMA area as defined by the Independent System Operator - New England.
- 6 Said report shall include, but not be limited to, a cost comparison of any technically feasible proposal
- 7 including transmission improvements, demand-side management programs, repowering of existing power
- 8 generation units in SEMA, or the development of new peaking generation facilities
